Moscow City Pedagogical University | 2009

Specialist Degree in Teaching English

LANGUAGES

English (near-native proficiency)

German (fluent)

Spanish (fluent)

French (intermediate)

Russian (native)

PROFILE

20+ years of helping people understand complex things. Now I bring that same clarity to UX/UI design and to the designers I work alongside. End-to-end experience across research, interaction design, and frontend implementation. Fluent in 5 languages, comfortable in international cross-functional teams.

EXPERIENCE

UX/UI Designer — Self-Initiated & Training Projects

Germany, CareerFoundry Certified | 2025 - Present

- Built end-to-end UX/UI projects across e-commerce, wellness, productivity, and education.
- Applied user research, usability testing, and iteration to deliver accessible, high-fidelity designs.
- Developed design systems and responsive prototypes with smooth developer handoff in mind.

Language Trainer

Russia & Germany | 2005 - Present

- Mentored diverse learners across 3 languages, building empathy-driven communication skills.
- Structured complex information for clarity, a principle now central to every interface I design.
- Managed remote collaboration with international groups using Miro and Notion.

PROJECTS

Design Challenge Generator — UX/UI Learning Tool

UX/UI Designer & Front-End Developer

Single-page web app with curated design challenges and embedded UX principles. Built with HTML, CSS and JavaScript. Responsive, accessible, and open to the public.

ReGo Market — Second-Hand Fashion App

UX/UI Designer

End-to-end e-commerce app with full design system, accessibility compliance, and responsive layouts across mobile and web.

Habitree — Habit-Tracking App

UX/UI Designer

Native mobile app balancing simplicity, motivation, and low cognitive load through considered information architecture.

NotaBene — Note-Taking App

UX/UI Designer

Minimal concept app exploring information architecture, visual hierarchy, and interaction patterns.
